Glossary

Effectiveness Level

A category that describes the certainty that a group of students met, exceeded, or fell short of expected growth.

Growth Index

An indicator of certainty that the group of students met, exceeded, or fell short of expected growth.

Growth Measure

A conservative estimate of the growth that students made, on average, in a grade and subject or course.

Standard Error

A measurement that establishes a confidence band around the growth measure and describes the amount of evidence that the group of students met, exceeded, or fell short of expected growth.

Growth Measure Percentile

A value that represents where the growth measure for the group of students falls in the distribution for this assessment.

Achievement Enter → Exit

Depending on the assessment, achievement is reported in Normal Curve Equivalents (NCEs) or scale scores.

- Entering achievement is either the average of the students' NCEs from the most recent prior year available or the average of the students' expected scale scores.
- Exiting achievement is either the average of the students' current year NCEs or the average of the students' actual scale scores.

Entering Achievement Percentile

The entering achievement for the group of students relative to the overall distribution for this assessment.

Student Count

The number of students included in the analysis.
